

UnderGuard PRO™ Underlayment

Owens Corning™ Roofing System

The foundation for a better roofing system

New!

Owens Corning's UnderGuard PRO™ underlayment provides a critical layer of protection beneath your shingles to help prevent moisture from reaching the roof deck. It's a vital part of a complete Owens Corning™ Roofing System.

- Easy to install – Helps to provide a safe walking surface for roofing professionals and can be installed over the various type of roof decks.
- Roof deck protection – Helps increasing flexibility and provides long-lasting durability while preventing water infiltration under shingles from wind-driven rain and other source.

low slope

The essentials for a healthy roofing system.

It takes more than just shingles to create a high-performance roof. It requires a system of products working together. Owens Corning™ Roofing Essentials™ Accessory Products work with our shingles to make up a roofing system that helps provide maximum durability for your roof. And the most protection for your home.
